## School Procedures

### Access and Security Procedures

The main gate to enter the campus is locked for safety purposes. It is monitored and operated by a campus Security Guard. For access, all persons wanting to enter the campus wait outside of the main entry gate. The Security Guard then approaches the gate and communicates with each person and allows access to only the designated school areas, based on the person's reason for being on campus. Visitors are scanned via metal detector and asked for a valid government-issued identification card to scan into the Raptor System. Guests are then escorted to the main office and buzzed in for office entry.

PAL Charter Academy's official school policy is to allow only those visitors who have legitimate business to visit the school. Visitors and guests must register with the Security Guard, obtain a visitor badge and report to the main office, immediately upon entering the campus. Parents/Guardians of enrolled students or new parents who wish to enroll their students are always welcome to visit. However, we require that all parents/guardians register in the Student Services Office when entering and upon leaving. We suggest that all parents/guardians call ahead for an appointment with the administrator, teacher, or counselor with whom you want to meet as we service incoming parent requests on a first come, first served basis if parents/guardians visit without an appointment. Parents/guardians wishing to sit in a class need to make arrangements with the administration at least one day before the visit. Students are not permitted to have visitors, other than guardians, or bring younger children or babies onto campus during the school day.

All employees of the campus or visitors are required to wear their PAL or Security Guard-issued assigned identification badge at all times. Staff who expect visitors will inform the Head of School prior to a visitor being on campus, otherwise the visitor will not be allowed on campus. Unauthorized visitors are considered to be loitering and can be held in violation of *Penal Code 653g*. "Loiter" means to delay, linger, or idle about any school without lawful business for being present. Law enforcement is contacted and consulted to help maintain and to promote a safe and orderly school environment. Provisional Accelerated Learning Academy employees comply with all legal mandates, regulations, and reporting requirements for all instances of suspected child abuse.

Additional internal security procedures that help provide for the safety of the school facility include specified departments and School Personnel equipped with walkie-talkies for all of the buildings. Key Administration and all Security Guards have radios for communication. The school is also equipped with surveillance cameras that monitor classrooms, quad areas, and the parking lot. This school also has an agreement for monitoring and response by the San Bernardino City Unified School District Police Department when contacted. Community involvement is encouraged, to help increase school safety. PAL also uses the Raptor Service whereby we check in all parents/guardians through the system with proper government-issued identification.

## Visitor Procedures

### Raptor Management System:

Raptor is a web-based software application that has been developed with the purpose of aiding educational facilities in tracking their visitors, students and faculty. Raptor not only provides an effective, efficient method for tracking, but also goes beyond conventional applications by utilizing available public databases to help improve campus security. It allows schools to produce visitor badges, monitor volunteer hours, and electronically check all visitors against registered sexual offender databases or internal campus alerts. The overall goal is to better control access to all San Bernardino City Unified Schools; thus providing enhanced protection for our students and staff.

### General Procedures:

1. When the visitors arrive, they will be greeted and asked for valid government-issued photo identification. The Security Guard will scan the visitor's identification and issue a badge with the visitor's destination if there is no alert indicated on the database. The Security Guard doing the admission will keep the individual's driver's license in plain view, to reduce concerns regarding the copying of personal information. The identification card will immediately be returned to the visitor when the badge is handed to them. At no time will a visitor's identification card be kept by the attendant. The badge must be placed on the chest or an appropriate, visible area upon receiving it. If the visitor does not have acceptable photo identification available, the campus administrator or Head of Schools may be called to assess the situation. If he or she determines the visitor is known, the visitor's information can be manually entered. If a visitor is flagged in the system we have a procedure that is used that directs the Security Guard to follow specific security protocols that deal with the specific reason for the person being flagged. Flagged visitors are either denied access or are escorted by a Security Guard to the main office and must remain in the presence of the Security Guard unless directed otherwise by Administration or Head of Schools.
2. All visitors are checked in via the Raptor service by the Security Guard at the main entrance and receive a PAL-approved visitor badge. All front office staff receive training on visitor check-in procedures to ensure that all persons who are not assigned to the campus have a visitor's badge or PAL photo ID card visible. Any person who does not have a campus visitor badge with the current date displayed or a PAL ID badge should be immediately escorted to the office.
3. Signs direct visitors to the main gate and list our visitation procedures. Signs are also placed on buildings and at doors and potential entry points directing visitors to the proper offices they are visiting. Visitors to selected locations are announced via walkie talkie or phone communication before their arrival.
4. The visitor will return to the Student Services Office and the main gate to check-out when they are leaving the campus. The visitor will be instructed to give the badge back to designated office personnel/Security Guard to check them out of the system. Once the visitor has been signed out of the system, the badge should be torn thoroughly so it cannot be reused. If a visitor forgets to check out by the end of the day, the visitor will be checked out automatically and reminded the next time he/she/they check in to be sure and return the badge upon leaving.

## **Arrival and Dismissal Procedures School Procedures**

School Procedures – Arrival and Dismissal Procedures School begins at 8:00 AM. There should be no drop off prior to 8:00 am, as there is no supervision. The entry gate at the front of the school (west side on the Middle School Campus and east side on the High School Campus) is the gate that students use to enter the school via street entrance. Parents with cars dropping off students will drop them off on 19th Street (Middle School Campus) in front of our campus or in the parking lot of the High School Campus, entering through the east side gate and exiting the west side gate of the parking lot. Parking Gate opens for PAL's school van drop-off at 7:30 am (High School) and 7:45am (Middle School). Students are allowed to enter the campus at 8:00 am. Early attendees and van riders are dropped off at the main gate of the school and met by the Security Guard who screens them to enter the school. All students must show an approved student ID and allow security staff to check purses and backpacks (students at PAL may carry PAL-approved backpacks only.) Students are also screened for appropriate dress as agreed to in our Student Handbook and must follow any other security screening protocols. Students who clear the screening process enter the quad entry gate and are under the care and attention of designated staff members who supervise them in designated areas until the bell rings to start daily classes. Students who do not clear the screening process are escorted to the Student Services Office to resolve the issue (no ID, inappropriate dress, etc.) The bell to signal the start of school rings at 8:25 am. Students should be on campus and ready to start their day by 8:25am. At 8:30 am, a student is considered late. Any student arriving after 8:30 am will be required to go to the office for a tardy slip.

### **Medical or other Appointments**

Parents/guardians wanting to take their child out of school during instructional time, for an appointment or other personal reasons, must check into the office and make the request in person. Some students qualify for after school activities because of participation in school sports and clubs. Rosters and sign in sheets will be used for all after school activities. Our staff and teachers engage and remind students about the behavior expectations; our 3 D’s philosophy of success poster, “Determination, Discipline and Dedication” is also clearly visible, as a reminder to students. When confrontation or disagreements between students occur, the practice of Restorative Justice may be used and students are expected to use learned skills to review how a problem could have been handled. They discuss possibilities and come up with a solution to rectify their issues. Students may also schedule an appointment with an intervention staff member who can direct them in how to resolve any issues.

## School Procedures – Assessment of School Safety Status

When completing the SWOT analysis with regard to school safety, the team looked at the strengths, weaknesses, opportunities, and threats in order to identify which areas need developing, which areas are thriving, stagnant, and those that need improvement.

### PAL Charter School Strengths

Definitions: Factors that are likely to have a positive effect on (or be an enabler to) achieving the school's safety objectives:

- Security Guards walk campus each morning before opening up to students, security procedures carried out and followed consistently.
- Security Guards are also proactive in patrolling campus often and checking for any threats.
- The implementation of life skills classes, Behavioral/Mental Health symposiums, and interventions through the Focus Learning center to address student's personal development has created a more positive student climate on campus.
- PAL also has a contract with SBCUSD School Police for school safety services and can immediately communicate with SBCUSD Campus Police via two-way radio and phone calls.

### PAL Charter School Weaknesses

Definition: Factors that are likely to have a negative effect on (or be a barrier to) achieving the school's objectives:

- The San Bernardino campus is located at the very end of the street of a very populated residential area that dead ends with vacant, unfenced land surrounding the campus on one side and a baseball field, that is under construction, on the other side. These isolated areas can leave the campus open to vandalism and graffiti.

### PAL Charter School Opportunities

Definition: External Factors that are likely to have a positive effect on achieving or exceeding the school's objectives, or goals not previously considered:

PAL develops partnerships with the community at large, providing needed educational services to our community. Opportunities to develop a culture of safety by increased communication with parents and students fosters community engagement. As a small school, PAL can provide many one to one or small group opportunities to reach students with important information about the dangers of bullying, drugs, alcohol use, and vaping.

### PAL Charter School Threats

Definitions: External factors and conditions that are likely to have a negative effect on achieving the school's objectives, or making the objective redundant or unachievable.

High crime area; homeless population is growing in the neighborhood.

## **Earthquake Policy and Procedures**

### Earthquake Preparedness

Earthquake Emergency Procedures shall be established in every school building having an occupant capacity of 50 or more students, or more than one classroom, and shall be incorporated into the comprehensive school safety plan [*Education Code 32282*]. Earthquake Emergency Procedures shall be aligned with the Standardized Emergency Management System and the National Incident Management System [*Government Code 8607; 19 CCR 2400-2450*]. Earthquake Emergency Procedures shall include, but not be limited to, all of the following: [*Education Code 32282*]

1. A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staff.
2. A drop procedure whereby each student and staff member takes cover under a table or desk, dropping to his/her knees, with the head protected by the arms and the back to the windows. Drop procedures shall be practiced at least once each school quarter in elementary schools and at least once each semester in secondary schools.
3. Protective measures to be taken before, during, and following an earthquake.
4. A program to ensure that students and staff are aware of and properly trained in the earthquake emergency procedure system [*Education Code 32282*]. Earthquake emergency procedures shall outline the roles and responsibilities of students and staff during and after an earthquake. Staff and students shall be informed of the dangers to expect in an earthquake and procedures to be followed. Students shall be instructed to remain silent and follow the directions given by staff in such an emergency. Staff and students also shall be taught safety precautions to take if they are in the open or on the way to or from school when an earthquake occurs. Earthquake emergency procedures shall designate outside areas and alternative areas, which may include areas off campus if necessary, in which students will assemble following evacuation. In designating such areas, the Head of Schools or designee shall consider potential post-earthquake hazards outside school buildings including, but not limited to, power lines, trees, covered walkways, chain link fences that may be an electric shock hazard, and areas near buildings that may have debris.

Earthquake emergency procedures shall designate evacuation routes and alternative routes that avoid areas with potential hazards to the extent possible. The needs of students with disabilities shall be considered when planning evacuation routes. The Head of Schools or designee shall identify potential earthquake hazards in classrooms and other school facilities. Potential hazards may include, but are not limited to, areas where the main gas supply or electric current enters the building, suspended ceilings, pendant light fixtures, large windows, stairwells, science laboratories, storage areas for hazardous materials, shop areas, and unsecured furniture and equipment. To the extent possible, such shall be minimized by securing equipment and furnishings and removing heavy objects from high shelves.

### Earthquake While Indoors at School

When an earthquake occurs, the following actions shall be taken inside buildings and classrooms:

1. Staff shall have students perform the drop procedure. Students should stay in the drop position until the emergency is over or until further instructions are given.
2. In laboratories, burners should be extinguished if possible before taking cover.
3. As soon as possible, staff shall move students away from windows, shelves, and heavy objects and furniture that may fall.
4. After the earthquake, the Head of School or designee shall determine whether planned evacuation routes and assembly areas are safe and shall communicate with teachers and other staff.
5. When directed by the Head of Schools or designee to evacuate, or if classrooms or other facilities present dangerous hazards that require immediate evacuation, staff shall account for all students under their supervision and have the students evacuate the building in an orderly manner.

### Earthquake While Outdoors on School Grounds

When an earthquake occurs, the following actions shall be taken by staff or other persons in authority who are outdoors on school grounds:

1. Staff shall direct students to walk away from buildings, trees, overhead power lines, power poles, or exposed wires.
2. Staff shall have students perform the drop procedure.
3. Staff shall have students stay in the open until the earthquake is over or until further directions are given.

### Earthquake While on the Bus

If students are on the school bus when an earthquake occurs, the bus driver shall take proper precautions to ensure student safety. The driver shall pull to the side of the road, away from any outside hazards if possible, and turn off the ignition. As soon as possible, the driver shall contact the Head of Schools or designee for instructions before proceeding on the route.

### Subsequent Emergency Procedures

After the earthquake has subsided, the following actions shall be taken:

1. Staff shall extinguish small fires, if possible.
2. Staff shall provide assistance to any injured students, take roll, and report missing students to the Head of Schools or designee.
3. Staff and students shall not light any stoves or burners until the area is declared safe.
4. All buildings shall be inspected for water and gas leaks, electrical breakages, and large cracks or earth slippage affecting buildings.
5. The Head of Schools or designee shall post staff at a safe distance from all building entrances and instruct staff and students to not reenter until the buildings are declared safe.
6. The Head of School or designee shall request assistance as needed from the County or City Civil Defense Office, fire and police departments, City and County Building Inspectors, and utility companies and shall confer with them regarding the advisability of closing the school.
7. The Head of Schools or designee shall contact the Executive Director or designee and request further instructions after assessing the earthquake damage.

## **PAL Charter Academy Policies**

### **Hazmat Release Procedures**

PAL Charter Academy recognizes that potentially hazardous substances are used in the daily operations of our schools. The Head of School or designee shall ensure these substances are inventoried, used, stored, and regularly disposed of in a safe, legal manner. The Head of School or designee shall minimize the quantities of hazardous substances stored on school property and shall substitute less dangerous materials for hazardous substances, to the best of their ability.

### **Hazard Communication Program**

The Executive Director or designee shall develop, implement, and monitor a written Hazard Communication Program in accordance with state law. As part of this program, he/she shall ensure that employees are fully informed about the properties and potential hazards of substances to which they may be exposed and that Material Safety Data Sheets (MSDS) are readily accessible to them. The Executive Director or designee shall ensure that school staff purchase, use, store, transport, and regularly dispose of all hazardous substances in a safe and legal manner.

All employees and students shall be fully informed about the properties and potential hazards of materials to which they may be exposed. A Material Safety Data Sheet must be kept on file and must be readily available for each hazardous material received. The Executive Director or designee must approve all hazardous materials purchased and disposed of by PAL. All staff and teachers must stress the importance of proper protection and handling, storage, and disposal of potentially hazardous materials. At each school offering laboratory work to students, the Head of Schools shall designate a trained Certificated employee as the School Science Laboratory Consultant if needed. The School Science Laboratory Consultant shall review, update, and carry out the school's procedures for laboratory safety. Disposal of laboratory chemicals shall be accomplished in accordance with any guidelines set forth by PAL policy and the Science Safety Handbook for California Public Schools.

Teachers shall instruct students about the importance of proper handling, storage, disposal, and protection when using any potentially hazardous substance.

### **Student Fight Procedures**

The goal in this situation is to prevent escalation and contain the area to the extent possible until Police arrive. School Personnel:

1. Promptly walk, don't run to the fight, so you may visually analyze the situation and mentally form a strategy as you approach.
2. The moment you come in sight of the altercation, use an authoritative voice and indicate you want it stopped immediately.
3. If possible, while walking to the fight, stop and obtain help from other teachers. Make sure someone is sent to the office for additional assistance.
4. Call out to any of the students you recognize and start giving orders: "Mary, go to Mr. Frank's room. Sam, you go to the office and get Mr. Jones." It does not matter what you tell the students

to do. Just remember, kids are accustomed to responding to directions, so give them directions. You want them away from the commotion.

5. If you know the fighters by name, call out each of their names and let them know you know who they are.
6. If you are confronted with a real serious situation, get additional help.

## **Flood Procedures**

This procedure applies whenever storm water or other sources of water flood or threaten to flood school grounds or buildings. Flooding may occur as a result of prolonged periods of rainfall. Also, flooding may occur without warning as a result of damage to water distribution systems.

1. Initiate appropriate immediate response actions: SHELTER-IN-PLACE, EVACUATE, or OFF-SITE EVACUATION.
2. Call the Administrative Office, Head of Schools, and Maintenance Office.
3. In the event of evacuation, teachers shall bring their roll sheet and take attendance in the assembly area.
4. Notify School Administration of any students unaccounted for.

## **Flu (Influenza)/Pandemic Procedures**

Any influenza or pandemic impacting our school will be managed through the Student Services Office in coordination with the San Bernardino County Public Health Department. Influenza, also known as the flu, is a contagious respiratory disease caused by different strains of viruses. Flu viruses spread from person to person when people who are infected cough or sneeze. Anyone with a fever or other symptoms of the flu should stay home from work or school until at least 24 hours after the fever is gone (without medications). These common sense steps are recommended to stop the spread of germs:

1. Wash hands frequently with soap and water or an alcohol-based hand sanitizer.
2. Avoid or minimize contact with people who are sick (a minimum three feet distancing is recommended).
3. Avoid touching your eyes, nose, and mouth.
4. Cover your mouth and nose with tissues when you cough and sneeze. If you don't have a tissue, you need to cough or sneeze into the crease of your elbow.
5. Stay away from others as much as possible when you are sick.

## **Food and Water Contamination Procedures**

This procedure should be followed if site personnel suspect contaminated food or water. It applies where there is evidence of tampering with food packaging, observation of suspicious individuals in proximity to food or water supplies, or if notified of possible food/water contamination. Indicators may include unusual odor, color, taste, or multiple employees experiencing nausea, vomiting, or other illnesses.

1. Isolate suspected contaminated food/water and restrict access to the area.

2. Call 911.
3. Notify the Head of School, the Administrative Office (to include the CEO, Human Resources Director and Operations Coordinator), and Maintenance Office.
4. Staff will make a list of all potentially affected students and staff.
5. Staff will make a log of symptoms, the suspicious food/water, quality and character of products.
6. Medical First Responders will assess the need for medical aid.
7. The Head of School or designee will notify parents/guardians of affected students.

### **Unhealthy Air Quality and Extreme Heat Plan**

PAL acknowledges the potentially adverse effects of unhealthy air quality and extreme heat conditions on the health of students and employees; and will:

1. Notify students and employees when unhealthy air quality or extreme temperature/humidity conditions exist;
2. Modify school programs and work assignments for the protection of students and employees when unhealthy air quality or extreme heat conditions are attained;
3. Cooperate with other governmental agencies and the community in matters of critical concern regarding unhealthy air quality and extreme heat.

CHAIN OF COMMAND/ACTIVITY ADJUSTMENT AUTHORITIES: The decision to cancel, postpone or modify outdoor activities in the event of heat may be made by the Executive Director, Head of School, or affected Physical Activities Teacher/Coach.

### **Cold/Inclement Weather Protocol**

COLD/INCLEMENT WEATHER RESPONSIBILITIES: Environmental risks which are all factors of cold weather safety may include air temperature, wind chills, rain/snow, relative humidity, existing medical conditions, and the amount of time spent outside. It is the responsibility of parents/guardians to properly clothe their child(ren). Each site should communicate to families and plan accordingly for school-based outdoor activities:

- Planning recess, field trips, Physical Education/Physical Activities, or any outdoor activity is determined by the weather. Persons can properly maintain a comfortable body temperature by layering clothing. Beverages help maintain a comfortable body temperature (room temperature is best).
- Younger students, or persons with health conditions such as asthma, Exercise-Induced Bronchospasms, known cardiovascular disease or other predisposing factors, and those who are not dressed appropriately for the cold weather are at greater risk of health complications in cold temperatures. These staff members/students should be closely monitored.
- Head of Schools/Student Services should communicate and remind families to properly dress students with wind breaking jackets, heavy coats, scarves, gloves, and/or all clothing necessary for cold weather temperatures. Parents/Guardians are also encouraged to properly tag their child(rens) clothing for identification.

CHAIN OF COMMAND/ACTIVITY ADJUSTMENT AUTHORITIES: The decision to cancel, postpone, or modify outdoor activities in the event of cold weather/elevated winds may be made by the Executive Director, Head of Schools, or affected Physical Education Teacher/Coach.

### **Loss of Utilities Procedures**

These procedures address situations involving a loss of water, power, or other utilities on school grounds. These procedures should also be used in the event of the discovery of gas leaks, exposed electrical lines, or a break in sewer lines.

1. Notify the Administrative Office, to include the Executive Director, Human Resources Director, and Operations Coordinator, in the appropriate chain of command sequence.
2. If water or an electrical line is broken, an effort should be made to safely turn off water or power to the affected area and immediately notify the Head of School or designee.
3. Upon notice of loss of utilities the Head of School or designee will initiate appropriate immediate response actions, which may include SHELTER-IN-PLACE, or BUILDING EVACUATIONS. The Head of School or designee will notify the Maintenance/Operations Department, and will provide the location and nature of the emergency.
4. The Head of School or designee will notify all proper authorities of the loss of utility service.

### **Motor Vehicle Crash Procedures**

If an accident, such as a motor vehicle collision occurs on or near campus:

1. Call 911, if there are injuries.
2. If no injuries occur and you are on campus, notify the School Security Guard, Head of School, the Administrative Office (to include the Executive Director, Human Resources Director, and Operations Coordinator), in the appropriate chain of command sequence; or if needed SBCUSD District Police (909-388-6130).
3. If no injuries occur and you are off campus, you need to notify local police.
4. Contact the School Office and report the incident and if any persons are injured or trapped.
5. If no buildings are endangered, instruct students to stay inside classrooms.

2. If no buildings are endangered, instruct students to stay inside classrooms.

3. If buildings are damaged, evacuate all students and staff from wreckage as appropriate.
4. Take roll and complete Accountability Report.
5. If evacuated, wait for instructions from the Administrator.

### **Animal Disturbance Procedures**

This procedure should be implemented when the presence of a dog, bull, coyote, mountain lion, or any other wild animal threatens the safety of students and staff.

1. Call 911 and report to the Associate Head of School, Head of School, the Administrative Office (to include the Executive Director, Human Resources Director, and Operations Coordinator), in the appropriate chain of command sequence.
2. The Associate Head of School/designee will initiate appropriate actions, which may include LOCKOUT or EVACUATION from the affected area.
3. Upon discovery of an animal, staff members will attempt to isolate the animal from students.
4. If the animal is outside, students will be kept inside. If the animal gets inside the students will remain outside. It is suggested to close the doors or lock gates as a means to isolate the animal.
5. Call Animal Control.
6. If conditions change or warrant it, the Head of School/designee will initiate Off-Site Evacuation Procedures.

### **Tear Gas Policy**

#### Possession of Pepper Spray

To prevent potential misuse that may harm students or staff, students are prohibited from carrying tear gas or tear gas weapons, such as pepper spray, on campus or at school activities.

STUDENTS: No kindergarten through twelfth-grade student, even if that student is 16 years of age or older, may possess a tear gas weapon (this also includes “pepper spray”) while taking part in any regular school activities, including extra-curricular, after-school activities, such as athletic events and dances. Although the Penal Code authorizes a person 16 years of age or older to possess and carry a tear gas weapon, PAL Charter Academy maintains complete authority over the possession of tear gas weapons on school sites. Heads of Schools/Delegates are directed to advise students of this prohibition and that appropriate disciplinary action will be taken, should any student be found in possession of a tear gas weapon at school or at a school activity.

### **Declaring an Emergency Procedures**

Heads of School/Delegate will notify the classrooms of a major emergency by using the school intercom. SBCUSD District/City-Wide emergencies may be declared and are managed by the SBCUSD Emergency Operations Center and followed by PAL Charter Academy.

## Use of Site as an Evacuation Center

PAL Charter Academy does not have any current MOU's/agreements with the American Red Cross or other agencies for the use of schools during emergencies, but may be used as an evacuation site based on emergency or community needs. Any requests made to the school for any such use should be directed to the Administrative Office of PAL Charter Academy for processing.

## Notifying 911 and Paramedics Procedures

Purpose: All employees of the school site are responsible for taking all reasonable actions to promote the safety of all of the students, at all times. This protocol will provide guidelines for calling an ambulance and/or paramedics.

Objective: All employees will know how to respond appropriately in an emergency situation and implement the emergency medical system properly, efficiently, and quickly.

Responsible Staff: Associate Head of Schools, School Nurse, Health Assistant, Secretaries, Clerks, Teachers, and other designated staff.

Head of School or Administrative Designee will make a decision to call an ambulance/paramedics:

1. When informed of occurring medical situations listed above ·
2. When School Nurse recommends a 911 call (if on school campus) ·
3. When "In doubt"- CALL 911

The Head of School or Administrative Designee must complete a Student/Visitor Injury form and call the Administrative Office to report the 911 call.

**School Nurse**

The school nurse is the recognized health leader when on campus. The school nurse will make the final decision to call the ambulance/paramedics if there is a disagreement with an Administrator regarding the assessment of the seriousness of the medical situation. The school nurse will:

1. Work with the Head of School or Designee (if Head of School is off campus), regarding the need to call 911.
2. Keep the Head of School or Designee (if Head of School is off campus) informed, as soon as possible, of the decision to call 911.

4. Telephone number you are calling from.
5. How many people are involved and how much help is needed (fire in chemistry lab, eight victims burned vs. car accident, one victim injured).
6. What is currently being done for the victim(s)? How is the victim reacting to what is being done for him/her/them?
7. Student or staff member’s age and name.
8. Any medical history of the child/adult that is on record that paramedics need to know.

Any responsible staff may contact parents/guardians which may include: Administrator, School Nurse, Health Assistant, Secretaries, Clerks, Teachers, and Other Designated Staff.

1. Always call parents/guardians and report the medical situation to them.
2. Inform parents/guardians of any and all medical care given to the student and if 911 was called.
3. If a parent/guardian states that 911 should not be called and the medical situation is life-threatening (see Situations Requiring 911), call 911 despite parental objection.
4. If a student has other non-life-threatening injuries, but they must receive medical attention (e.g.- broken bones, severe pain) and the parents/guardians are not coming to pick up the student to

obtain medical attention, inform the Head of School or School Nurse for instructions regarding calling 911 for assistance.

5. If a parent/guardian arrives at school while paramedics are there they have the right to deny medical transportation.
6. If parents arrive before 911 is called, offer to call 911 for them for medical assistance. If calling 911 is denied then recommend that they seek medical care for the student themselves and document it in the student's medical information in AERIES.
7. If unable to contact the parent/guardian, continue to provide first aid or call 911, if applicable.

Factors to be considered by school officials when determining the scope of the search shall include the danger to the health or safety of students or staff, such as the possession of weapons, drugs, or other dangerous instruments; and whether the item(s) to be searched by school officials are reasonably related to the contraband to be found.
